- NOT Free
- Presentation and discount will be made in March 2011 PC Club meeting
- http://www.acronis.com

REMOTE ACCESS AND SUPPORT OVER THE INTERNET

Do you need to access your home computer from another location?

Do you need to help someone who is having a problem with their computer and need to see what they are doing?

View Presentations Remotely

Free Utilities that can help

- TeamViewer (most popular)
- Join.me (temporary)
- Gotopc
- WallCooler VPN
- LogMeIn Free

Or a paid version

- GoToMyPC

http://www.teamviewer.com/index.aspx

TeamViewer is a solution for easy and friendly desktop sharing.

You can remote control a partner's desktop to give online assistance, or you can show your screen to a customer

- all without worrying about
  - Firewalls,
  - IP addresses and
  - NAT

TeamViewer comes with integrated file transfer

- That allows you to copy files and folders to and from a remote partner – which also works behind firewalls

Highest security standard

- TeamViewer is a very secure solution. All versions feature completely secure data channels with key exchange and AES (256 Bit) session encoding, the same security standard used by https/SSL.

JOIN.ME

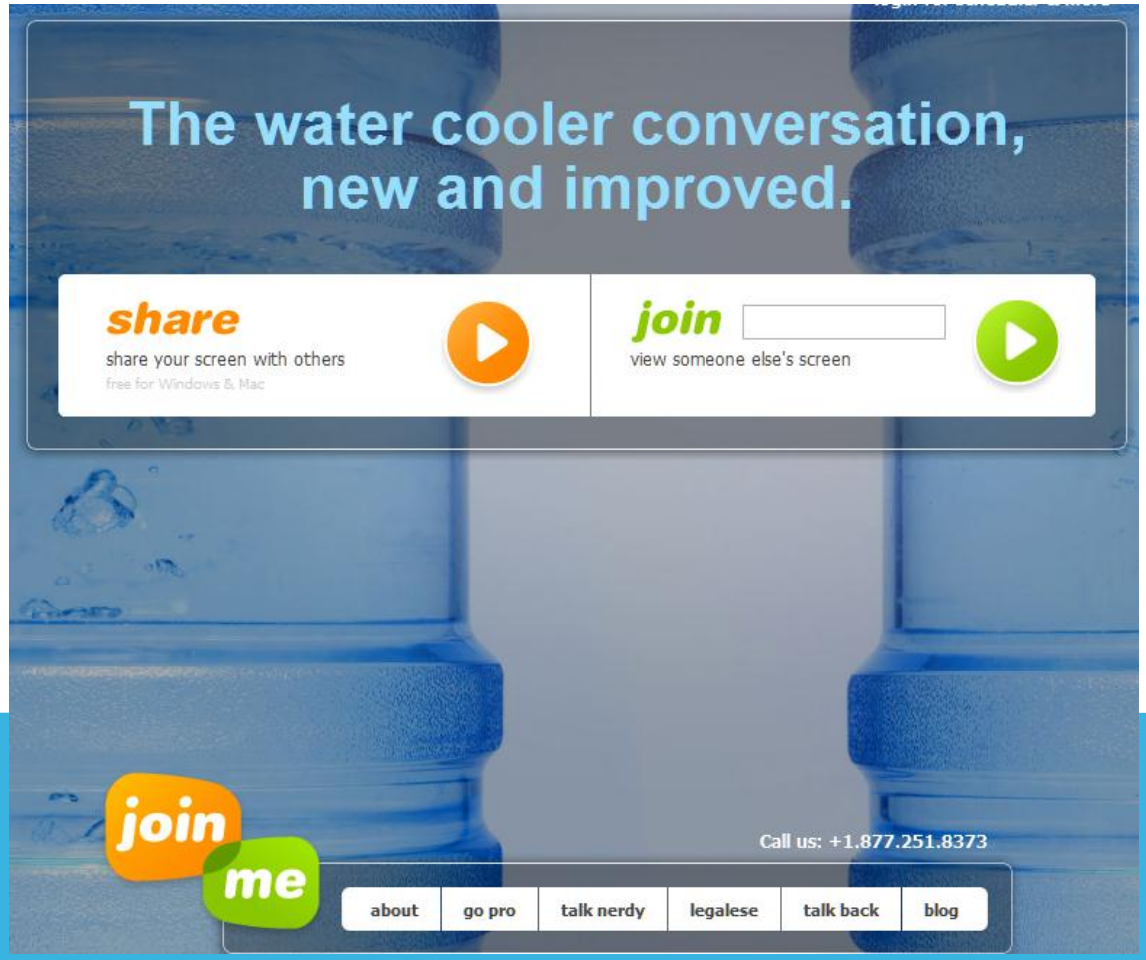
Fast Screen Sharing
between remote users

Share

- Provides connection number

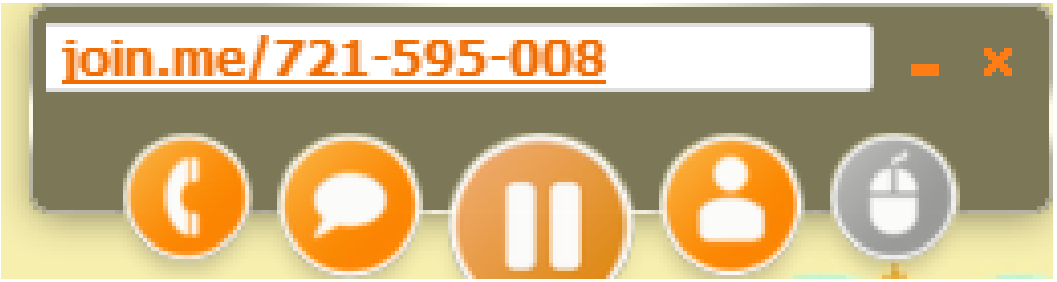
Join

- You need to provide the connection number of the other computer



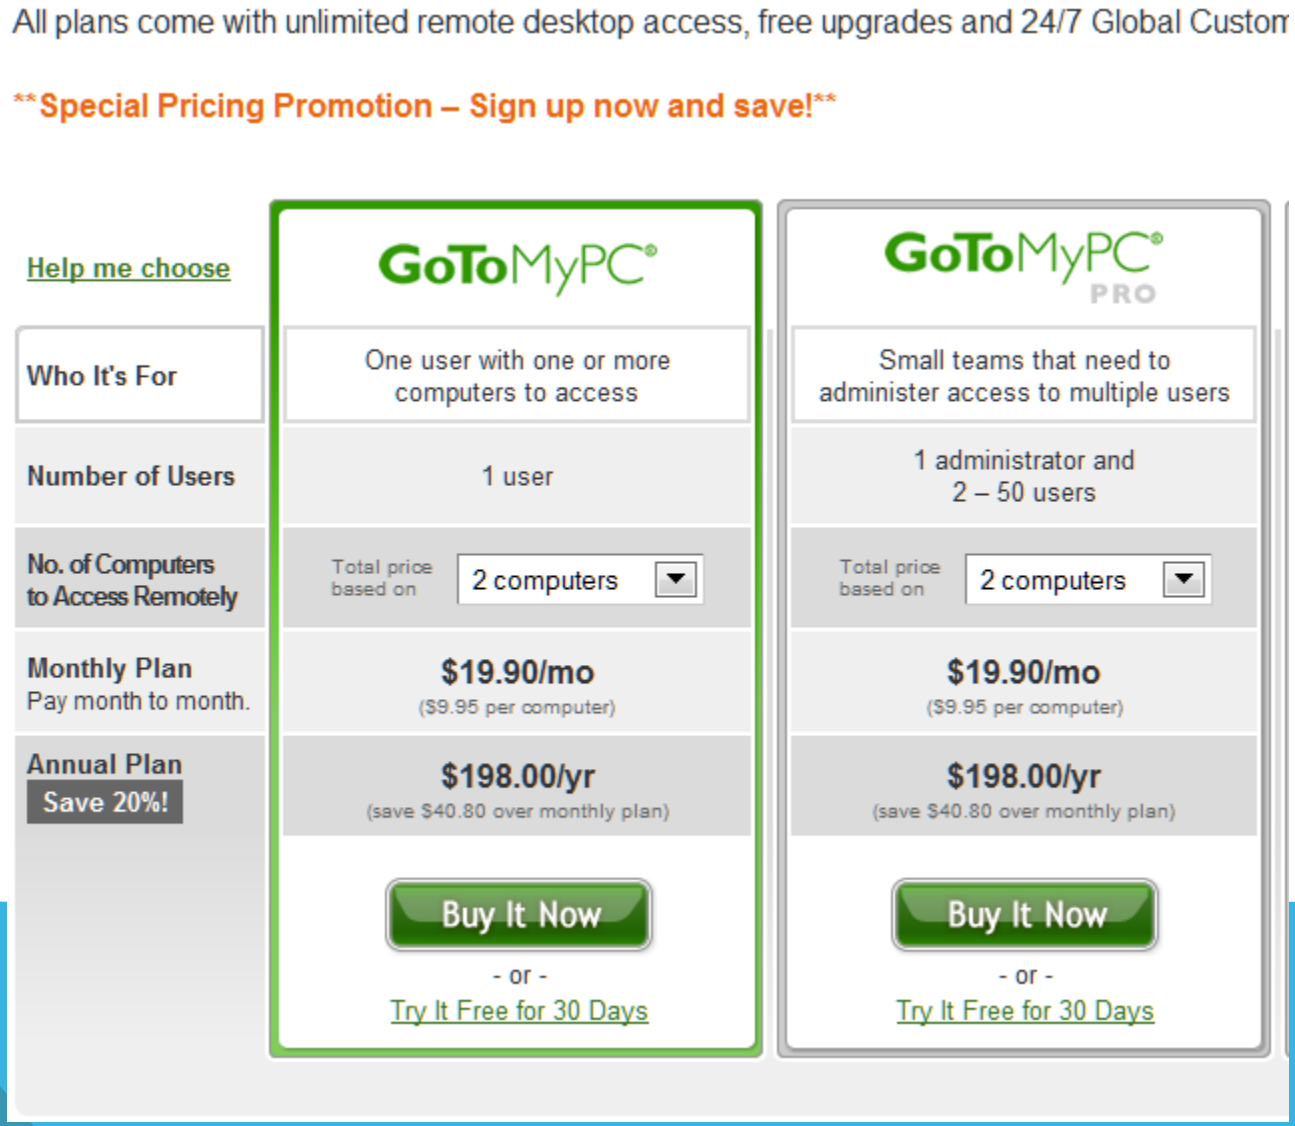
JOIN.ME

Code is added to browser to allow someone to connect.



GOTOMYPC

30 Days Free

$198.00/Year


- Only works with 2 computers that you sign up for at that price
