Registering by Proxy for Session 3 2017

To sign up for courses without attending registration, use the proxy form below. This form can be used to sign up one individual for one or more courses. If you're not a SeniorNet member, you can still use this form; you'll be contacted about joining SeniorNet after you get into a course. You do not have to join SeniorNet if you only want to take a workshop.

You can request as many as five courses by proxy. At registration, a lottery number will be assigned to your proxy, and your chance of getting into your first choice of courses is the same as if you registered in person. However, people who attend registration will have a chance to sign up for additional courses before those who register by proxy, so in that way, people who attend registration have an advantage.

If the course you requested fills up before your lottery number is called, your name will be added to the waiting list for that course, and there is a possibility that you might be contacted if a seat becomes available.

After registration, you'll receive a call or an email to let you know whether you did or did not get into your requested courses.

To register by proxy, complete the form below. Place it in an envelope with a separate check for each course you want to take (do not send cash). Drop off your proxy at the Almaden Community Center information desk, deliver it to a staff member in the SeniorNet classroom, or mail it to the address below.

**SNLCA
P. O. Box 20932
San Jose, CA 95160**

Your proxy must be received by SeniorNet Almaden by 12 noon on Friday, June 2. If it arrives later, it will be processed as a late registration.

After registration, to get into a course, go to www.snicsj.org/almaden to see which courses still have openings, and then call **408-674-1401** to register for any open course.
